重庆市开州区 2020 年重点招商引资项目推介表 1

项目名称	重庆市开州区 50 万头生猪一体化养殖项目				
招商单位	重庆市开州区政府				
类别/产业	生猪养殖	项目有效期		长期	
项目总投资	10 亿		拟吸引投资金额	10 亿	
项目联系人	林健	电话	18981065530	邮箱	2351496572@qq.com
项目建设地点	开州区各乡镇禁养区、限养区范围外符合要求的用地				
合作方式	<input checked="" type="checkbox"/> 独资 <input type="checkbox"/> 合资 <input type="checkbox"/> 合作开发 <input type="checkbox"/> 收购股份 <input type="checkbox"/> 委托运营 <input type="checkbox"/> 其他				
项目概述	预计建设种猪场 4 个，基础母猪存栏 25000 头，年生产猪苗 50 万头，年出栏肉猪 50 万头				
项目经济效益分析	<p>一、当前重庆养猪行业基本情况</p> <p>整体来看，当前重庆生猪养殖行业基本呈现“规模化、专业化、集中化”的发展趋势。近年来生猪行情大幅波动，加上饲料原材料价格高涨，导致生猪养殖行业效益明显下滑，养殖风险则明显大增。加上重庆新农村建设的推进，农村的零散养殖户大量减少，本地生猪出栏量已经不能满足市场需求，重庆由原来的生猪输出大省转变为生猪输入大省。同时，当前新环保法的实施，也进一步制约了农村散养户的发展。重庆生猪规模化养殖的比例不断上升，专业化养殖企业的养殖规模也较前期有了明显增加，但仍然不能填补散养户退出后的市场空白，整体也没有形成科学合理的产业链条，产、供、销、科研、服务、管理等方面缺乏有机结合。为此，重庆市已提出“建立以适度规模养殖为主导，农户标准化养殖为基础”的生猪生产方式。</p> <p>二、市场情况</p> <p>重庆是传统猪肉消费大市，猪肉消费占肉类的比重高达 75%。重庆市场主要需求略有肥膘的大体重良种或良杂肉猪，纯瘦肉型肉猪只在部分中心城市或是大型屠宰企业有一定需求。消费高峰一般都出现在下半年冬至前后。</p> <p>三、生产情况</p> <p>(1) 当前重庆生猪存栏概况</p> <p>2011 年养猪效益高，极大的刺激了散养户生猪养殖热情，重庆区域新建猪场遍地开花，生猪养殖量和存栏量都有较大幅度的增加。然而，2012 年到 2014 年持续低迷行情使得散养户损失惨重。目前，重庆传统的家家户户养猪已经不复存在，农村大量栏舍处于空栏状态，养猪业已经成为一项高投入、高风险、高门槛的行业。广大散户无力承担养殖风险而大量退出，新建的规模猪场未能填补散户退出所留下的市场空白，由此重庆由传统的生猪调出大省变成现在的生猪调入地。</p> <p>综合分析，重庆生猪发展主要有以下几个特点：</p> <p>1、规模猪场较少，组织程度低。重庆市的生猪生产正在由以农户散养为主逐渐转化为规模猪场生产为主的形式，但专业户规模较小，产业龙头数量极少。部分企业也是初步涉足生猪养殖行业，经验和技术都还略显不足。</p> <p>(2) 科技水平低，产品品质差：生猪生产科技水平较低、瘦肉率 60%以上猪的良种覆盖率低，科技支撑与服务能力有待于进一步提高。</p> <p>(3) 市场波动频繁，养猪风险大：养猪行业的抗风险能力不强，抗风险机制不完</p>				

	<p>善，生猪市场波动频繁、波动幅度大。</p> <p>四、前景</p> <p>由于猪价的不不断波动，饲料价格的不断上涨，养猪所需资金、技术、防疫要求变得越来越高，农村散养户正加速减少，规模养殖不断崛起，规模化、企业化养殖正逐渐占据主导地位。重庆畜牧业建设思路将以构建现代畜牧产业体系为主线，以推进标准化规模生产、健全服务监管体系、完善市场流通体系、建立现代经营管理体制机制为重点，促进生产方式和经济增长方式转变，增强畜产品市场竞争力、保障市场供给，提升畜牧业效益，建成以生猪为主的资源节约型、环境友好型现代畜牧业示范区，为我国现代畜牧业建设探索道路、积累经验。</p>
<p>项目已具备条件及进展情况</p>	<p>项目已完成工商注册工作，注册名“重庆开州温氏畜牧有限公司”，发改委备案正在办理中，已完成种猪场初步选址，分别位于南雅镇民安村，九龙山麒麟村、三义村，九龙山卧云村、四合村，三汇口乡咸乐村共 4 块种场用地，其中南雅镇、九龙山镇共 3 块地已召开项目推进会及村民代表大会，其中麒麟村、三义村已召开村民决议会议，正在进行土地分户丈量及地面附作物统计。</p>
<p>产业概况</p>	<p>开州区位于重庆市东北部，三峡库区小江支流回水末端，介于东经 107° 55′ 48″ -108° 54′ 、北纬 30° 49′ 30″ -31° 41′ 30″ 之间。西邻四川省开江县，北依大巴山接城口县和四川省宣汉县，东毗云阳县和巫溪县，南接长江邻万州区，幅员面积 3595 平方公里。地势由东向西南逐渐降低，其中山地占 63%，丘陵占 31%，平原占 6%。开州区地处中纬度地区，具有亚热带季风气候的一般特点，季节变化明显，因为盆周山地阻挡，寒潮不易入侵，气温比同纬度、同海拔的其他地区略高，冬暖春早，夏季海洋性季风带来大量温暖空气，夏季雨量充沛、温湿适度，年平均降水量 1250 毫米，年平均气温 18.5℃，无霜期长，达 306 天以上，年平均日照时获得 1463 小时。</p> <p>开州区境内国道共有 4 条，为 G211、G243、G347、G542，总计 272 公里，行政村通畅率、行政村客运班车通达率均达到 100%。</p> <p>由于猪价波动，饲料价格不断上涨，养猪所需资金、技术要求变得越来越高，农村散养户正逐渐减少，重庆市养猪业的模式正在发生变化，散养模式渐渐退潮，规模化养殖不断崛起，高效率的规模化养殖模式将在不久的将来占据主导地位，为此，我们必须加快公司在重庆市开州区的肉猪养殖发展速度，抢占市场先机。响应集团公司加快发展养猪业的号召，增强西南养猪公司的盈利水平，为实现西南养猪公司“五五”规划目标奠定基础。扩大公司的生产规模，提高公司在川渝地区的影响力。西南养猪公司各方面发展日益成熟，生产成本下降势头明显，通过扩大生产规模、整合资源可以进一步优化企业运营效益。通过已发展的 19 个分公司布点，已经累计了较为丰富开发经验。</p>
<p>上下游产业情况</p>	<p>开州区具有良好的农业基础，高度重视畜牧业发展，认同公司加农户、龙头带基地的产业化经营模式来代替传统的分散养殖方式，表示对规模养殖企业在项目、资金、税收等方面予以大力扶持。同时，生猪养殖一直是开州农业支柱产业，具备良好的发展条件和基础。当地政府极为重视畜牧业，并希望引进带动力强、产业体系完善、能给老百姓带了实惠的大型龙头企业，引领地方生猪产业健康快速升级，大力支持该项目落户，对财税、用地、环保等优惠政策较多；当地农村剩余劳动力丰富，民风淳朴，农户参与合作养殖积极性较高。</p>
<p>产业政策 优惠政策</p>	<p>一、优惠政策方面</p> <ol style="list-style-type: none"> 1.甲方积极为乙方争取国家、省、市、区有关扶持政策。 2.在乙方防疫、检疫申报资料齐全的情况下，甲方即时开具检疫证明等有关手续。 3.甲方应建立以区人民政府区长为组长，区委、区政府联系分管领导为副组长，区级相关部门主要负责人为成员的项目领导小组，落实一名区级领导专人负责协调工

作。乙方各种要件齐备，相关部门在最短时限内协助乙方办理工商注册、税务登记、环境影响评价、项目报建、生产许可、用地流转、检疫检验、消防等相关手续，费用由乙方支付；根据乙方项目建设需要，及时召开现场办公会，协调解决相关问题。

4.甲方根据乙方符合产业政策的家庭农场发展规划区域和生产进度，将发展目标纳入相应镇街年度考核，以确保乙方项目顺利实施。对乙方生猪养殖用地及与乙方合作的业主养殖用地，甲方均按中共中央办公厅、国务院办公厅《印发关于引导农村土地经营权有序流转发展农业适度规模经营的意见的通知》和国土资源部、农业部《关于进一步支持设施农业建设发展的通知》(国土资发〔2014〕127号)有关规定优惠执行，支持畜牧养殖业发展。与乙方合作的养殖场、家庭农场是乙方的一个生产车间，所生产的肉猪及乙方为其供应的猪苗、饲料、药物等，是乙方的自产自销产品。

5.甲方按国家相关政策规定向乙方兑现国家、省、市、区对养猪行业的补贴政策，积极为乙方争取国家、省、市有关养殖场环保工程项目、标准化示范场创建等扶持政策和补贴资金。乙方种猪场内，在建成后能够提升原有森林植被覆盖率，可享受专项资金补贴。

6.甲方负责协助争取银行(信贷部门)对乙方合作家庭农场主的养殖项目进行资金支持，扩大乙方合作家庭农场主筹集资金渠道，加快推动合作家庭农场发展步伐。对符合补助条件的家庭农场积极协助争取上级项目支持。甲方负责对家庭农场选址进行把关、制定实施发展目标、考核方案和在项目资金上对家庭农场进行支持。

二、土地使用方面

1.甲方负责征收位于开州浦里新区内约50亩土地净地出让给乙方作为公司总部、建设配套管理设施，由国土部门按程序出让，在乙方交清土地价款、税费后15个工作日内办好所征土地的使用权证。交付总部用地前负责完成该地块水、电、路、气、视、讯等主网至厂区用地红线外的建设，并做好地面建筑物、构筑物、附着物的清理与土地平整等工作，费用由甲方负责。项目用地范围内的所有建设由乙方负责。

2.甲方协助乙方按设施农业用地方式在区境内镇街流转取得3-4处适宜养殖用地进行种猪场建设，并协助乙方办理设施农业用地的报备手续，用于种猪场场的建设。乙方流转土地共约1500-2000亩，每处土地300-500亩，土地流转款按照土地流转合同约定支付，流转年限期为30年以上。

3.甲方牵头负责，乙方配合清除所流转土地上的一切附着物，如供电、通讯、供水线路、山坟、青苗及建筑物、构筑物等，包括根据项目环评报告要求，对周边农户实施环保避让搬迁，费用由乙方承担。甲方积极引导养殖场周边发展种(林)产业，并承诺通过包装项目整合资金，支持铺设乙方养殖场外周边种植基地管网，实现种养循环。

4.乙方流转的土地范围如涉及占用林地的，甲方负责协调国土、林业的相关林地置换手续，协助乙方争取最优惠的补偿费。

三、环保方面

1.甲方负责指导乙方按照环保相关法律法规开展环境影响评价工作和办理环评审批手续。严格执行“三同时”制度，按排污许可管理规定申请办理排污许可证。监督乙方各养殖场所产生的污染物进行集中环保处理、达标排放或零排放。

2.甲方依照相关政策，积极支持乙方粪污无害化处理后综合利用的项目申报；积极协调和引导当地苗木、水果、粮食种植等农耕地使用沼液，引导当地种植业使用有机肥，建设生态有机农业，打造种(林)养结合的生态养殖示范区，促进农牧业的可持续发展。

3.甲方督促乙方及其合作的家庭农场同时按环保要求做好环评和治污设施建设，确保达标排放或者零排放。

四、项目建设方面

1.甲方有关部门对乙方自行设计的项目工程建筑设计方案(含平面布置方案、立面效果图和项目整体鸟瞰图)进行审查, 建筑物和构筑物施工图必须由有设计资质的设计单位进行设计。

2.对乙方项目各单位工程(含临时建筑物)的报批, 甲方所属规划、国土、建设、人防、消防、防雷及环保等主管部门应给予支持。在资料齐全的情况下, 甲方负责协调各相关部门在最短法定工作日内完成申报的批复手续或实行一站式办公, 快捷办理各项手续。

3.甲方对乙方总部办公楼、倒班房、饲料厂等需报建的工程, 在国家规定的基础上给予最优惠收费。

4.建设的项目工程必须按招标方式进行招投标, 开工之前必须按规定办理施工许可等手续, 其费用按区现行招商引资优惠政策收取。建设的项目建筑工程及室内外水、电、气、视、讯等工程由乙方组织工程招投标及施工建设, 甲方由主管部门履行监督职责。

5.乙方的养殖场(舍)建设需采用国际国内先进技术, 初步设计方案通过甲方组织专家论证通过后实施。考虑到工程的进度与质量, 由乙方自主选择有资质的施工单位按有关建设规定负责建设, 甲方各主管部门按有关规定负责监管。

6.乙方养殖场(舍)及配套设施、与乙方合作的家庭农场主养殖圈舍及配套设施等简易建筑物或构筑物视为临时建筑, 当地主管部门实行一站式办公, 免费快捷办理各项手续。

五、水、电、气、视、讯费收取及其他政策

1.无供水、电、路、气、视、讯条件的, 甲方无偿铺设主网至乙方的公司总部、养殖场和服务部的围墙边。

2.水、电、气、视、讯的使用计费收取标准, 按区现行招商引资优惠政策的最优惠标准执行。甲方帮助协调供电部门将乙方的种猪场生产用电、合作家庭农场主生产用电按农业用电标准收取。

3.乙方每个猪场每天约需 300—500 立方米用水, 在自来水主管网通达的猪场使用自来水, 并实行水价按成本价收取。如自来水主管网未通达的猪场, 需取用水源的, 甲方允许乙方就近使用水源, 甲方予以支持, 并协助其办理相关许可手续。

4.入户入学方面, 乙方外地员工落户本地时, 免收一切入户手续费用; 未办理入户手续的公司其他外地员工可免办理居住证, 只需按规定到户口管理机关办理登记造册, 不收取任何费用; 公司员工子女在本地入托、上学的, 一切按照当地居民子女对待, 免收走读费、择校费等任何附加费用。

5.甲方不引进、不支持其他企业或个人在乙方所开办的种猪场周围 3 公里范围内开新办养猪场。

6.甲方协助乙方积极向上争取政策扶持和资金扶持。

重庆市綦江区 2020 年重点招商项目推介表 2

项目名称	百益果(又名: 药用皱皮木瓜)精深加工项目			
招商单位	重庆綦江食品园区管理委员会			
类别/产业	第二产业	项目有效期	2020 年	
项目总投资	3 亿元	拟吸引投资金额	3 亿元	
项目联系人	余冬梅	电话	023-48601888	邮箱 2374800383@qq.com
项目建设地点	重庆綦江食品工业园区			

合作方式	<input checked="" type="checkbox"/> 独资 <input type="checkbox"/> 合资 <input type="checkbox"/> 合作开发 <input checked="" type="checkbox"/> 收购股份 <input type="checkbox"/> 委托运营 <input type="checkbox"/> 其他_____
项目概述	项目占地约 100 亩，以鲜木瓜、干木瓜或木瓜渣为主要原料，外加天然辅料，运用现代食品加工技术开发生产具有营养和保健作用的木瓜产品，主要生产产品：亚纳米木瓜粉、保肝木瓜产品、木瓜酒、浓缩木瓜汁、木瓜果脯、木瓜 SOD 精华素、木瓜提取物和木瓜色素等系列产品。
项目经济效益分析	木瓜具有丰富的营养元素和保健功能，素有“百益果王”之称。利用木瓜的平肝和胃、舒筋活络、软化血管、抗菌消炎、抗衰养颜、抗癌防癌、增强体质等功能，加之国际上对木瓜浓缩汁需求量与目前供应量相差缺口很大，其出口价格高达 6~10 万美元/吨，开发的木瓜系列产品，市场前景广阔。
项目已具备条件及进展情况	1. 独资。园区土地储备充足，项目入驻即可开展土地招拍挂（或由专业工业地产商定制标准厂房或进入天海星大健康产业园）和方案设计、环评等工作。2. 收购股份。园区企业金立方酒业整体转让，已完成前期尽调、财调，可立即开展收购相关工作。
产业概况	<p>原料基地：綦江具有悠久的中药木瓜种植历史，已建成有 10 万亩木瓜基地，全部盛产后可年产鲜木瓜 10 万吨以上。</p> <p>作为重庆市唯一专业食品加工园区，为加快推动农产品精深加工企业向园区集聚，綦江食品园区围绕产业配套、要素成本和营商环境三个方面，按“五个一”思路构建产业生态闭环、营造投资价值洼地、打造产业聚集平台。一是组建一个研究院。围绕科创与文创，建设创新孵化中心、产业研究中心、品牌推广中心、智慧管理信息智库，在创新、战略、资金、品牌、营销等方面帮助企业补短板，将潜力企业培育孵化成为行业独角兽。二是成立一个产业联盟。汇聚产业链上、中、下游企业，形成协同发展态势，优势互补、资源共享。并将企业生产经营活动以外的检验检测、污水处理、第三方物流、能源供应、法律咨询、人才引进等事项交由产业联盟统筹运营，在提高生产效率的同时，节约企业生产成本。三是配套一个产业基地。园区与新城按照“一体规划、整体打造”思路，配套以绿色食品加工为核心的消费品工业产业基地，引进专业工业地产运营商，以产业为依托，地产业为载体，实现土地的整体开发与运营，构建产业价值链一体化平台。四是建设一个示范小镇。以健康养生、工业旅游为主线，集产品体验交易、展览展示、高峰论坛、工业旅游等功能为一体，建设独具特色的示范小镇。五是打造一张园区名片。从健康出发，品牌落笔，以多元化手段提升园区形象，注重品牌培育，将产品品牌、企业品牌、产业品牌集成为园区品牌、区域品牌、城市品牌，打造高质量发展专业园区。</p> <p>目前，园区水厂、污水处理厂、天然气、道路已建成，正引进央企实施“分布式多能联供智慧能源站”项目，实现“热电冷”三联供，在减少企业初期投资、运营维护成本的同时，降低蒸汽、电、热、冷等生产要素成本 20%左右。</p>
上下游产业情况	已经种植木瓜约 10 万亩，年产鲜木瓜 10 万吨以上，与西南大学、第三军医大合作进行木瓜产品的研发，目前已有 3 家木瓜精深加工企业入驻，从种植到精加工已形成一定的规模集聚，具有一定的产业基础支撑。
产业政策优惠政策	土地价格根据投入、产出强度和税收强度可按“一企一策”进行商议。企业所得税、增值税区级留成部分可在一定年限内按一定比例奖励企业。

重庆市綦江区 2020 年重点招商项目推介表 3

项目名称	萝卜、辣椒加工产业链
招商单位	綦江区农业农村委员会

类别/产业	第二产		项目有效期	3 年	
项目总投资	5000 万元		拟吸引投资金额	5000 万元	
项目联系人	杨莹	电话	13436182712	邮箱	694941660@qq.com
项目建设地点	食品园区或萝卜产业园范围内				
合作方式	<input checked="" type="checkbox"/> 独资 <input checked="" type="checkbox"/> 合资 <input type="checkbox"/> 合作开发 <input type="checkbox"/> 收购股份 <input type="checkbox"/> 委托运营 <input checked="" type="checkbox"/> 其他_____				
项目概述	<p>1. 项目规模：总投资 5000 万元。</p> <p>2. 项目内容：一是拟引进辣椒精深加工龙头企业，年加工能力 3 万吨以上，研重点研发生产辣椒素、辣椒红素、辣椒油树脂、辣椒籽油和辣椒精等精深加工产品。二是引进萝卜生产、精深加工及营销龙头企业，扶持农户将改良品种及新品种进行连片种植，建设萝卜生产基地及科技措施推广应用，采取“公司+基地+农户”模式，研发生产萝卜丝、条、萝卜榨菜、腌菜、萝卜汁等系列产品，统一包装销售，实行产、供、销一条龙的生产、经营格局。</p>				
项目经济效益分析	<p>我国是一个拥有 13 亿人口的发展中大国，目前食辣人口比重约 40%，食辣人口总数超过 5 亿，市场需求蕴藏着巨大的发展潜力。我国食辣历史悠久，食辣人群庞大。随着国内人口频繁流动，辛辣饮食文化快速传播，传统意义上的「忌辣清淡区」已经越来越模糊，并逐步向微辣区转变，加上原有的辛辣区、微辣区的食辣人口比重也有增无减，国内辣椒消费的地域、人群和数量必然会进一步增加。萝卜的生长周期非常短，从播种到成熟只需短短两个月的时间，在我国拥有广泛的食用人群，是我国的第二大蔬菜。萝卜不仅可以鲜食，还可以加工成萝卜丝、萝卜片等。在农村，人们还会用它来腌制咸菜或者制作泡菜、酸菜等，市场前景广阔。</p>				
项目已具备条件及进展情况	<p>綦江辣椒具有个体均匀、色泽鲜艳、辣味浓等特点，富含蛋白质、脂肪、糖分、维生素、氨基酸等营养元素，现已发展优质辣椒规模种植产业 7 万亩，年产优质辣椒 15 万吨。</p> <p>綦江赶水草兜萝卜历史悠久，至今有 500 多年栽培历史。因其外形形似草兜制品而得名，个大、型圆、皮薄、肉嫩、汁多、味美、化渣；通过检测，赶水草兜萝卜的钙、磷、铁和核黄素含量均超过柑橘、梨等水果，且总可溶性固形物、单糖、双糖、总酸、抗坏血酸均高于同类萝卜，含水量高达 94%。赶水草兜萝卜因其风味独特，在清朝时就曾作为宫廷供品，</p>				
产业概况	<p>綦江现已引进重庆饭遭殃食品有限公司入驻綦江食品工业园区，加工生产“饭遭殃”辣椒系列产品，远销美国、加拿大等国家，曾被确定为 2008 年北京奥运会指定推荐产品。目前綦江区每年仍有 8 万吨辣椒可提供加工，原材料供应充足。1958 年被四川省政府列为名优产品，2012 年荣获第十届国际农产品交易会金奖，重庆名牌农产品，2013 年荣获绿色食品认证、中国地理标志证明商标，赶水镇石房村成为全国一村一品示范村，赶水草兜萝卜曾多次走进了中南海，成为国宴佳品。“赶水草兜萝卜节”已连续举办七届，已成为綦江区的重要节会。现阶段赶水镇已发展草兜萝卜产业 20000 亩，年产量 8 万吨左右。赶水镇周边郭扶、永城、东溪镇均发展草兜萝卜种植产业，年产草兜萝卜共计 2 万吨左右，且仍有大量耕地适合草兜萝卜种植。</p>				
上下游产业情况	<p>目前全区草兜萝卜、辣椒种植已达到 10 万亩规模，原料供应充足；已形成了赶水萝卜干、饭遭殃辣酱等一系列知名农副产品。</p>				
产业政策 优惠政策	<p>扶持萝卜、辣椒初精深加工企业，对新建生产线、购置设备等，按一定标准给与补助。</p>				

重庆市石柱县 2020 年重点招商引资项目推介表 4

项目名称	黄连康养产品研发及产业化				
招商单位	石柱县投资促进中心				
类别/产业	农业	项目有效期	2021 年		
项目总投资	6 亿元人民币	拟吸收投资金额	6 亿元人民币		
项目联系人	蒋珺	电话	023-73398888	邮箱	55045946@qq.com
项目建设地点	石柱县辖区范围内				
合作方式	独资				
项目概述	建设高水平的中药材康养产品研发实验室 1 个，重点研究开发以黄连为原辅料的中药饮片、中成药、黄连健康饮料、黄连香皂（牙膏）等新产品。				
项目经济效益分析	近年来，随着健康养生观念的普及，中华民族国粹——中医得到了国内外市场的高度认可，中医药及中药材市场前景十分广阔。				
项目已具备条件及进展情况	境内有 16 个乡镇、3 万农户、10 万连农种植黄连，常年在地面积 5 万余亩，年均新栽和收获黄连 1 万亩，产量 3000 吨，居全国第一，占全国总产量的 60%，世界总产量的 40%以上。				
产业概况	石柱黄连系常用名贵中药，性寒，味苦，主治泻火解毒、清热燥湿，有抑菌、抗病毒、降压、利胆、利尿、镇静、镇痛和增强白血球吞噬等作用。黄连还具有降血脂、血糖、血压功能，对治疗糖尿病、心脑血管疾病、皮肤病和某些肿瘤有一定疗效。				
上下游产业情况	主要分布在重庆（石柱）、湖北（利川）、四川、陕西、云南等地。石柱县居全国第一，占全国总产量的 60%，世界总产量的 40%以上。				
产业政策优惠政策	西部大开发政策、三峡库区产业扶持政策、少数民族地区发展扶持政策、武陵山经济协作区扶贫开发政策等。“一事一议”、“一企一策”。				

重庆市石柱县 2020 年重点招商引资项目推介表 5

项目名称	特色脆红李深加工				
招商单位	石柱县投资促进中心				
类别/产业	农业	项目有效期	2021 年		
项目总投资	2 亿元人民币	拟吸收投资金额	2 亿元人民币		
项目联系人	蒋珺	电话	023-73398888	邮箱	55045946@qq.com

项目建设地点	石柱县辖区范围内
合作方式	独资
项目概述	深度开发脆红李罐头、果脯、饮料等高附加值康养产品；脆红李冷链物流、营销渠道建设。
项目经济效益分析	现有脆李基地主要在川渝两地山区，结合我县实际以及市场容量，发展脆红李有一定的空间。近几年脆红李价格偏高，基地价格在6—7元/公斤，平均亩收入在1万元左右，高的可以达到2万元。目前脆红李鲜果和深加工产品消费市场空间较大，西部、南方、北方等城市市场还可以拓展，市场前景十分广阔。
项目已具备条件及进展情况	石柱县地处北纬30度，属于亚热带湿润季风气候，山青水秀、土壤肥沃，立体气候明显，海拔在200—1900多米，自然条件优越，自古以来就有种植李子的传统和习惯，能产出优质佳味的脆红李。
产业概况	目前全县在地面积1.5万亩，随着全县农业产业结构深度调整，正在大力发展脆红李种植。全面达产后，全县鲜果将达到7万吨以上。
上下游产业情况	现有脆李基地主要在川渝两地山区，结合我县实际以及市场容量，发展脆红李有一定的空间。目前脆红李鲜果和深加工产品消费市场空间较大，西部、南方、北方等城市市场还可以拓展，市场前景十分广阔。
产业政策优惠政策	西部大开发政策、三峡库区产业扶持政策、少数民族地区发展扶持政策、武陵山经济协作区扶贫开发政策等。“一事一议”、“一企一策”。

重庆市石柱县 2020 年重点招商引资项目推介表 6

项目名称	中药材深加工				
招商单位	石柱县投资促进中心				
类别/产业	农业	项目有效期	2021 年		
项目总投资	6 亿元人民币	拟吸收投资金额	6 亿元人民币		
项目联系人	蒋珺	电话	023-73398888	邮箱	55045946@qq.com
项目建设地点	石柱县辖区范围内				
合作方式	独资				
项目概述	利用黄连、佛手、前胡等丰富的中药材资源，建设集研发生产为一体的中药饮片、中兽药、中成药生产线，形成完整生物制药产业体系。				

项目经济效益分析	随着社会经济的发展，大众对医疗保健有了更高更多样化的需求。传统中医药以其治疗疑难病症、老年病和养生保健等方面的专长，以及简便绿色的特色，在全国及全世界受到越来越多的青睐，在“回归自然、绿色康养”的浪潮中独领风骚。市场需求量逐年递增，发展前景十分广阔。
项目已具备条件及进展情况	石柱县境内中药材资源丰富。全县出产植物类中药材 1700 余种、动物类中药材 170 余种、矿物药材 20 余种，可开发利用的各类中药材有 206 种，天麻、佛手、党参、何首乌、金银花、杜仲、厚朴、黄柏等名贵中药材量多质优，其中尤以黄连名扬中外。
产业概况	全县现有人工种植中药材在地面积达到 30 万亩，其中草本药材 10 万亩，木本药材 20 万亩，年产量 15000 余吨。随着产业结构深度调整工作的不断深入，全县中药材规模将进一步增大，为产业化深加工提供了良好的资源条件。
上下游产业情况	现目前，全县有贵州神奇、泰尔森制药 2 家规模以上医药企业，具有一定的产业基础。石柱县独特的区位优势使得发展中药材深加工市场辐射广，前景广阔。
产业政策优惠政策	西部大开发政策、三峡库区产业扶持政策、少数民族地区发展扶持政策、武陵山经济协作区扶贫开发政策等。“一事一议”、“一企一策”。

重庆市秀山县 2020 年重点招商引资项目推介表 7

项目名称	中药饮片加工项目				
招商单位	秀山县投资促进中心				
类别/产业	二产	项目有效期	长期		
项目总投资	1 亿元	拟吸引投资金额			
项目联系人	张宇	电话	18996921601	邮箱	124533673@qq.com
项目建设地点	秀山县工业园区内				
合作方式	R 独资 R 合资 R 合作开发				
项目概述	建筑面积 1 万平米，建中药饮片加工生产线 5 条。				
项目经济效益分析	项目建成后，将实现 2 亿元的产销规模，税收 700 万元，解决 300 人的就业问题。				
项目已具备条件及进展情况	开展项目前期筹备工作				

产业概况	秀山县地处武陵山腹地，中药材资源非常丰富。近年来，秀山县加快了中药材产业的发展步伐，中药材产业逐渐由过去的金银花“一枝独秀”，转变为以“秀五味”即金银花、白术、黄精、南苍术、白及为主，百合、罗汉果、天冬、青蒿等十余种为辅的结构。
上下游产业情况	截至 2018 年，秀山县中药材基地面积达到 25 万亩，其中金银花有 15 万余亩，干花产量近 5000 吨，使秀山成为全国三个最大的金银花基地县之一；白术常年种植面积在 2 万亩左右，产量 2000 余吨；黄精在地面积 6000 余亩、天门冬在地面积 1500 余亩、百合种植面积 8000 余亩；南苍术、金荞麦、前胡、紫菀等其他中药材 1 万余亩；另有皂荚、黄柏、银杏等木本药材 5 万余亩。中药材产业龙头企业达 35 家（其中市级龙头企业 6 家），中药材专业合作社 80 余家。
产业政策 优惠政策	1.增值税、企业所得税地方留成部分实行二免三减半；2.厂房租金两免三减半；3.投资在 10000 万元以上的新建重点扶持类产业项目，确需用地的，采用“一企一议”原则进行供地；3.可享受装修、搬迁、设备等补贴，参照《秀山土家族苗族自治县投资优惠政策（修订）》（秀山府办发〔2018〕40 号）文件执行。

重庆市秀山县 2020 年重点招商引资项目推介表 8

项目名称	中成药加工生产项目				
招商单位	秀山县投资促进中心				
类别/产业	二产	项目有效期	长期

项目建设地点	秀山县工业园区内				
合作方式	R 独资 R 合资 R 合作开发				
项目概述	占地 100 亩，建中成药加工生产厂一个。				
项目经济效益分析	项目建成后，将实现 2 亿元的产销规模，税收 800 万元，解决 100 人的就业问题。				
项目已具备条件及进展情况	开展项目前期筹备工作				
产业概况	秀山县地处武陵山腹地，中药材资源非常丰富。近年来，秀山县加快了中药材产业的发展步伐，中药材产业逐渐由过去的金银花“一枝独秀”，转变为以“秀五味”即金银花、白术、黄精、南苍术、白及为主，百合、罗汉果、天冬、青蒿等十余种为辅的结构。中成药作为中药产业的重要一环，未来具有广阔的发展前景。				
上下游产业情况	截至 2018 年，秀山县中药材基地面积达到 25 万亩，其中金银花有 15 万余亩，干花产量近 5000 吨，使秀山成为全国三个最大的金银花基地县之一；白术常年种植面积在 2 万亩左右，产量 2000 余吨；黄精在地面积 6000 余亩、天门冬在地面积 1500 余亩、百合种植面积 8000 余亩；南苍术、金荞麦、前胡、紫菀等其他中药材 1 万余亩；另有皂荚、黄柏、银杏等木本药材 5 万余亩。中药材产业龙头企业达 35 家（其中市级龙头企				

	业 6 家)，中药材专业合作社 80 余家。
产业政策 优惠政策	1.增值税、企业所得税地方留成部分实行二免三减半；2.厂房租金两免三减半；3.投资在 10000 万元以上的新建重点扶持类产业项目，确需用地的，采用“一企一议”原则进行供地；3.可享受装修、搬迁、设备等补贴，参照《秀山土家族苗族自治县投资优惠政策（修订）》（秀山府办发〔2018〕40 号）文件执行。

重庆市秀山县 2020 年重点招商引资项目推介表 9

项目名称	茶多酚提取项目				
招商单位	秀山县投资促进中心				
类别/产业	二产	项目有效期		长期	
项目总投资	1 亿元	拟吸引投资金额			
项目联系人	张宇	电话	18996921601	邮箱	124533673@qq.com
项目建设地点	秀山县工业园区内				
合作方式	R 独资 R 合资 R 合作开发				
项目概述	占地 100 亩，建年产 50 吨茶多酚加工提取产业园。				
项目经济效益分析	项目建成后，将实现 2 亿元的产销规模，税收 700 万元，解决 200 人的就业问题。				
项目已具备条件及 进展情况	开展项目前期筹备工作				
产业概况	茶多酚是大脑皮层兴奋剂，因此广泛应用饮料、食品、医药各个方面。目前国际市场茶多酚年需求量 1500—2000 吨左右，而现在世界上产量仅 450—500 吨，只能满足市场需要的四分之一，不足部份均为人工合成代用品。近年来国内饮食市场以 20% 的速度增长，对茶多酚的需求也激增，预测年需求量在 100 吨以上。				
上下游产业情况	秀山县现有茶叶基地 9 万亩，其中，规范化优质茶叶基地 5000 亩，高标准无公害茶园示范片 200 亩，高标准扦插育苗基地 2 个，茶叶产业覆盖 16 个乡镇(街道)、54 个行政村，主要有福鼎大白、川小叶、安吉白茶、金观音等 8 个品种。2013 年洪安溜沙茶园获评中国美丽田园，2016 年“秀山茶叶”获农业部地理标志产品认证。计划到 2020 年，全县茶园面积达 20 万亩，建成全市最大的茶叶基地县，年产干毛茶 8000 吨以上。				
产业政策 优惠政策	1.增值税、企业所得税地方留成部分实行二免三减半；2.厂房租金两免三减半；3.投资在 10000 万元以上的新建重点扶持类产业项目，确需用地的，采用“一企一议”原则进行供地；3.可享受装修、搬迁、设备等补贴，参照《秀山土家族苗族自治县投资优惠政策（修订）》（秀山府办发〔2018〕40 号）文件执行。				

重庆市秀山县 2020 年重点招商引资项目推介表 10

项目名称	年产 1 万吨金银花绿原酸提取项目				
招商单位	秀山县投资促进中心				
类别/产业	二产	项目有效期	长期		
项目总投资	1 亿元	拟吸引投资金额			
项目联系人	张宇	电话	18996921601	邮箱	124533673@qq.com
项目建设地点	秀山县工业园区内				
合作方式	R 独资 R 合资 R 合作开发				
项目概述	占地 50 亩，建年产 1 万吨金银花绿原酸提取生产线 5 条。				
项目经济效益分析	项目建成后，将实现 1.5 亿元的产销规模，税收 500 万元，解决 100 人的就业问题。				
项目已具备条件及进展情况	开展项目前期筹备工作				
产业概况	金银花的主要产地是山东、河南、湖南、广西、重庆、贵州等省，其原植物为金银花属银花较多，其绿原酸含量较低。在秀山、酉阳、綦江出产的灰毡毛忍冬在全国的药用金银花种类中，其有效化学成分绿原酸、异绿原酸、挥发油最高，并为湖南、贵州、重庆(原四川)产地标准收载，是极有发展潜力的金银花资源品种，具有极强的市场竞争力，出口创汇的市场十分看好。				
上下游产业情况	截止到 2018 年，秀山金银花的种植规模已逾 30 万亩，跃居全国第三，年产量超过 3 万吨。“渝蕾一号”品种绿原酸含量高达 7.1%，单株绿原酸产量、质量均在国内称冠。2008 年 3 月，“渝蕾一号”成为国家工商总局认定的著名商标，2010 年，秀山县被市政府授予“重庆市无公害金银花产地县”称号。				
产业政策优惠政策	1.增值税、企业所得税地方留成部分实行二免三减半；2.厂房租金两免三减半；3.投资在 10000 万元以上的新建重点扶持类产业项目，确需用地的，采用“一企一议”原则进行供地；3.可享受装修、搬迁、设备等补贴，参照《秀山土家族苗族自治县投资优惠政策（修订）》（秀山府办发〔2018〕40 号）文件执行。				

重庆市秀山县 2020 年重点招商引资项目推介表 11

项目名称	年产 1000 吨金银花浸膏生产线项目				
招商单位	秀山县投资促进中心				
类别/产业	二产	项目有效期	长期		
项目总投资	1 亿元	拟吸引投资金额			
项目联系人	张宇	电话	18996921601	邮箱	124533673@qq.com

项目建设地点	秀山县工业园区内
合作方式	R 独资 R 合资 R 合作开发
项目概述	占地 50 亩，建年产 1000 吨金银花浸膏生产线 5 条。
项目经济效益分析	项目建成后，将实现 2.2 亿元的产销规模，税收 700 万元，解决 200 人的就业问题。
项目已具备条件及进展情况	开展项目前期筹备工作
产业概况	金银花浸膏系列化产品，在国际市场上供不应求。大力建设金银花浸膏等生产项目，有助于提高经济的快速发展。
上下游产业情况	截止到 2018 年，秀山金银花的种植规模已逾 30 万亩，跃居全国第三，年产量超过 3 万吨。“渝蕾一号”品种绿原酸含量高达 7.1%，单株绿原酸产量、质量均在国内称冠。2008 年 3 月，“渝蕾一号”成为国家工商总局认定的著名商标，2010 年，秀山县被市政府授予“重庆市无公害金银花产地县”称号。
产业政策优惠政策	1.增值税、企业所得税地方留成部分实行二免三减半；2.厂房租金两免三减半；3.投资在 10000 万元以上的新建重点扶持类产业项目，确需用地的，采用“一企一议”原则进行供地；3.可享受装修、搬迁、设备等补贴，参照《秀山土家族苗族自治县投资优惠政策（修订）》（秀山府办发〔2018〕40 号）文件执行。

重庆市秀山县 2020 年重点招商引资项目推介表 12

项目名称	饮料生产项目				
招商单位	秀山县投资促进中心				
类别/产业	二产		项目有效期	长期	
项目总投资	1 亿元		拟吸引投资金额		
项目联系人	张宇	电话	18996921601	邮箱	124533673@qq.com
项目建设地点	秀山县工业园区内				
合作方式	R 独资 R 合资 R 合作开发				
项目概述	占地 100 亩，建果汁饮料生产车间 1 个。				
项目经济效益分析	项目建成后，将实现 1 亿元的产销规模，税收 400 万元，解决 100 人的就业问题。				
项目已具备条件及进展情况	开展项目前期筹备工作				
产业概况	2019 年饮料行业发展前景依然看好，未来我国饮料行业发展潜力巨大，低热量饮料、健康营养饮料、冷藏果汁饮料、活菌型含乳饮料等的发展前景看好。预计到 2022 年，我国规模以上饮料制造企业将实现主营业务收入 8600 亿元，饮料企业的获利能力逐步增长，在食品工业中保持较高水平。				

上下游产业情况	秀山县的茶叶、金银花、猕猴桃、脐橙等产业规模宏大，是重庆市最大的猕猴桃基地、重庆市无公害金银花产地县，金银花种植面积跃居全国第三，每年可产金银花 3 万吨、茶叶 6000 吨、猕猴桃 5000 吨、为饮料生产加工提供充足的原材料。
产业政策优惠政策	1.增值税、企业所得税地方留成部分实行二免三减半；2.厂房租金两免三减半；3.投资在 10000 万元以上的新建重点扶持类产业项目，确需用地的，采用“一企一议”原则进行供地；3.可享受装修、搬迁、设备等补贴，参照《秀山土家族苗族自治县投资优惠政策（修订）》（秀山府办发〔2018〕40 号）文件执行。

重庆市潼南区 2020 年重点招商引资项目推介表 13

项目名称	潼南区食品加工园项目				
招商单位	重庆市潼南区农业科技投资（集团）有限公司				
类别/产业	第二产业		项目有效期		
项目总投资	100 亿元		拟吸引投资金额		
项目联系人	刘豪	电话	19112070503	邮箱	285706781@qq.com
项目建设地点	潼南区工业园南区				
合作方式	<input checked="" type="checkbox"/> 独资 <input type="checkbox"/> 合资 <input checked="" type="checkbox"/> 合作开发 <input type="checkbox"/> 收购股份 <input type="checkbox"/> 委托运营 <input type="checkbox"/> 其他				
项目概述	潼南区食品加工园位于潼南高新区南区渝遂高速潼南互通，规划面积 1.86 平方公里，主要从事农副产品精深加工，着力培育蔬菜、柠檬、粮油、调味品、休闲食品等精深加工企业，基础设施完善。可投资大健康食品、脱水冻干蔬菜、净菜加工、中央厨房、饮料、果胶、果油、苦素、果汁、柠檬片、果油分离精油和香料、柠檬化妆用品等。				
项目经济效益分析					
项目已具备条件及进展情况	潼南区食品工业园目前入驻项目已达到 7 个。				
产业概况					
上下游产业情况	潼南是全国首批现代农业示范区、国家农业科技园区、国家农产品质量安全区、国家级生态原产地产品保护示范区、国家级出口蔬菜柠檬质量安全示范区、全国农产品主产区、全国产粮大区、全国生猪调出大区、全国鳊鱼繁殖基地、全国无公害蔬菜生产示范基地、全国休闲农业和乡村旅游示范区、全国“平安农机”				

示范区、西部绿色菜都、“中国蔬菜之乡”、“中国柠檬之都”、重庆市国家现代畜牧业示范区种养结合先行区、全市产油大区，是重庆主城最大的蔬菜保供基地。

一是粮油产业。全区年粮油种植面积达 100 万亩，其中产粮食 40 万吨、油料 5 万吨，建有水稻万亩高产创建示范片 7 个、油菜万亩高产创建示范片 3 个。打造了崇龛 3 万亩油菜花景区，成功举办了 11 届西部菜都菜花节，年接待游客 76 万人次，促进了农业与旅游的融合发展，实现了农业增效和农民增收。

二是蔬菜产业。建成标准化蔬菜基地 40 万亩，年蔬菜复种面积达 100 万亩，总产量达 200 万吨，种植面积和产量居全市第一，是重庆主城最重要的核心蔬菜保供基地，占重庆主城保供量的四分之一。

三是柠檬产业。正在建设柠檬脱毒育苗中心、标准化生产基地、加工产业园、柠檬交易中心，到 2020 年，建成规模化、标准化基地面积 25 万亩，实现产量 50 万吨、总产值 50 亿元以上。2017 年成功举办“中国·重庆潼南首届国际柠檬节”。

四是生猪产业。全区年生猪出栏 100 万头以上，建成生猪规模养殖场 1068 个，其中年出栏生猪 1000 头以上的规模场 312 个，规模化率达 54%。依托温氏集团“公司+农户”模式，发展合作养殖户 267 户，推动传统散养、粗放式饲养向标准化、规模化、生态化方向发展。同时推广“猪—肥—菜”、“猪—沼—菜（果）”等种养循环模式，有效防控畜禽粪污风险。

五是渔业产业。全区渔业养殖总面积 20 万亩，年水产品总产量 4 万吨，渔业总产值 4.7 亿元；建成农业部水产健康养殖示范场 7 个、水产品质量安全可追溯试点企业 3 个、全国休闲渔业示范基地 1 个，涌现出市、区级渔业产业化龙头企业 30 余家，区级推广机构荣获“全国基层水产技术推广示范站”称号。

六是特色经果产业。充分利用山地、坡耕地，大力发展特色经果，全区中药材、水果、洋姜、玫瑰、油牡丹、花椒等特色经果种植面积达 10 万亩，到 2020 年木本油料产业总规模达 15 万亩，其中木本油料基地规模达到 8 万亩，创建特色经果生态原产地保护产品 2 个同时。同时大力发展农旅融合发展，相继举办了玫瑰文化节、桑葚采摘节、梨花节、柚子节等以特色农业为主题的盛会。

七是中药材产业。重点发展川黄柏、黄精、枳壳、佛手、瓜蒌、石斛和白芨等中药材的种植，到 2020 年，中药材种植面积达到 6 万亩。建设 1000 亩以上种植基地 10 个，500 亩以上种植基地 40 个。引进中药材加工企业 1-2 家。完成潼

	<p>南枳壳、佛手、黄精等道地药材品牌建设。</p> <p>八是加工物流。规划面积 1.86 平方公里，目前引进汇达柠檬精深加工项目、朴真蔬菜酵素项目、檬泰柠檬精深加工项目、南徽融创火锅底料加工项目等 7 家企业。</p>
产业政策 优惠政策	

重庆市潼南区 2020 年重点招商引资项目推介表 14

项目名称	潼南区农业生产废弃物资源化利用循环产业项目				
招商单位	重庆市潼南区农业科技投资（集团）有限公司				
类别/产业	第二产业	项目有效期			
项目总投资	4.5 亿元	拟吸引投资金额			
项目联系人	刘豪	电话	19112070503	邮箱	285706781@qq.com
项目建设地点	潼南区				
合作方式	<input checked="" type="checkbox"/> 独资 <input type="checkbox"/> 合资 <input checked="" type="checkbox"/> 合作开发 <input type="checkbox"/> 收购股份 <input type="checkbox"/> 委托运营 <input type="checkbox"/> 其他				
项目概述	<p>潼南区近 800 家畜禽养殖场，粪污年超 300 万吨；蔬菜尾菜年产达 40-50 万吨；农作物秸秆类年产超 100 万吨。农业生产废弃物综合利用率较低，完全满足循环产业发展需求。通过对畜禽粪污、农作物秸秆及蔬菜尾菜集中收集、集中无害化处理，利用生物技术转化成生物有机肥。其中部分如萝卜等蔬菜尾菜在技术成熟条件下可利用作食品加工。可投资农业废弃物循环利用项目。</p>

产业政策 优惠政策	

重庆市巫溪县 2020 年重点招商引资项目推介表 15

项目名称	巫溪县弱碱水开发项目				
招商单位	巫溪县经济和信息化委员会				
类别/产业	能源	项目有效期		30 年	
项目总投资	1 亿元		拟吸引投资金额		1 亿元
项目联系人	邱林	电话	15870491058	邮箱	
项目建设地点	重庆市巫溪县文峰镇				
合作方式	<input type="checkbox"/> 独资 <input type="checkbox"/> 合资 <input type="checkbox"/> 合作开发 <input type="checkbox"/> 收购股份 <input type="checkbox"/> 委托运营 <input checked="" type="checkbox"/> 其他				
项目概述	建设弱碱性水生产线 1 条，建设年生产 100 万吨以上的天然弱碱性山泉水厂				
项目经济效益分析	项目落户巫溪有利于解决我县就业问题，增加当地农民收入，可大幅度的增加地方税收来源，促进地方经济快速发展				
项目已具备条件及进展情况	前期已进行实地勘察和调研工作，已拟定建设地点。				
产业概况	<p>资源优势：一是可开采量大且水质稳定，二是水质优良，可建年产 100 万吨以上的弱碱性含锶山泉水开发项目。劳动力资源优势：巫溪县劳动力资源丰富。全县有劳动力 27 万人，常年在务工人员在 12 万人。特别是水源所在地文峰镇是我县第一镇，该镇及周边三个镇的人口 8 万多人，集镇人口 1.5 万人以上，能满足企业用工需要。同时劳动力成本相对较低，我县企业用工成本每月每人在 2000 元左右，</p>				

	<p>低于主城和其他地区。目前文峰镇上有重庆市级小企业创业基地一个，现有工业企业 50 多家。水运方式：可通过花台港至宜昌、武汉、南京、上海等沿江大城市，里程分别为 300、800、1300、1800 公里，货轮运送时间分别为 24、25、38、48 小时，每吨运费分别为 12、25、38、48 元。</p> <p>陆路运输。巫溪县至重庆市主城高速公路，全程 420 多公里，大货车行驶时间在 7 小时之内，每吨运费 280 元左右。巫溪至宜昌高速公路近 300 公里，大货车行驶时间在 4 小时之内。</p>
<p>上下游产业情况</p>	<p>重庆市目前仅十多家水生产企业。除重庆涪陵区生产的娃哈哈外，其余的仅有少量瓶装水供应市场、部分宾馆及企业，大部分均为桶装水供应当地住户。我市现有优质的山泉水水源地普遍日出水量较低，最大的仅 200 吨/日，全市还没有一家水产业重点龙头企业，在重庆周边地区只有四川蓝剑饮品集团，其矿泉水销售占四川的饮用水市场份额 60%以上。</p>
<p>产业政策 优惠政策</p>	<p>土地政策：固定资产投资小于 1 亿元的项目，其建设用地按综合地价挂网竞得价缴纳（含公建用地）入库，入住工业园区凤凰组团的建设用地综合地价超过 8 万元/亩的部分，入驻尖山组团的其建设用地综合地价超过 5 万元/亩的部分，安排用于支持企业发展。入住花台组团沿库岸县水平距离 40 米内、出让价为 30 万元/亩；沿库岸线水平距离 40 米外的，出让价为 10 万元/亩，其竞得建设用地综合地价超过出让价部分，安排用于支持企业发展。税收政策：对年纳税额达到 100 万及以上新投产企业，自投产之年起，第 1-3 年、第 4-5 年分别以企业所得税县级留成 100%、80%给予补助；第 1-5 年增值税县级留成部分的 80%给予补助。标准厂房租赁政策：固定资产投资小于 5000 万元的企业入驻标准厂房，其租金标准为每月 6 元/m²（尖山租金每月返还 4 元）。固定资产投资大于 5000 万元的企业入驻标准厂房，按“一事一议”确定租金收取。</p>

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Kaizhou District) 1

Project name	500,000 Live Pigs Integrated Breeding Projects of Kaizhou District				
Investment attract department	The government of Kaizhou District				
Category/Industry	Pig breeding	The period of validity		Long-term	
Total investment	1 billion RMB		The amount of investment to be attracted		1 billion RMB
Contact person	Lin Jian	Tel	18981065530	Email	2351496572@qq.com
Location	All villages and towns in Kaizhou District meet the requirements outside the restricted areas				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship				
Project profile	The project is expected to build 4 pig breeding farms with 25000 basic sows in stock, 500000 annual pig seedlings and 500000 annual pigs will be produced.				
Project economic benefit analysis	<p>1.The current basic situation of pig raising industry in Chongqing</p> <p>At present, Chongqing pig breeding industry basically presents the development trend of "scale, specialization and centralization ". The proportion of large-scale pig breeding in Chongqing has been increasing, and the scale of specialized breeding enterprises has also increased obviously compared with the previous period, but it still cannot fill the gap in the market after the withdrawal of the scattered farmers, and the whole has not formed a scientific and reasonable industrial chain. Because of this, Chongqing has put forward the "establishment of moderate scale breeding as the leading, farmers standardized breeding as the basis" of pig production.</p> <p>2. Market situation</p> <p>Chongqing is a big market for traditional pork consumption, which accounts for 75% of meat consumption. And consumption peaks generally appear around the winter solstice in the second half of the year.</p> <p>3. Production situation</p> <p>The scale pig farm is less and the organization degree is low. The pig production in Chongqing is gradually transformed into the production of scale pig farm, but the scale of professional households is small and the number of industrial leaders is very small. Some enterprises are also initially involved in pig breeding industry, its experience and</p>				

	<p>technology are still slightly inadequate.</p> <p>Low technology and poor product quality. The technology level of pig production and the coverage rate of pigs with lean meat rate of more than 60% are low. The technology support and service capacity need to be further improved.</p> <p>Market volatility is frequent and pig risk is high. The anti-risk ability of pig industry is not strong, the anti-risk mechanism is not perfect, and the pig market fluctuates frequently.</p> <p>4. Prospect</p> <p>Because of the constant fluctuation of pig price and the rising of feed price, the capital, technology and epidemic prevention requirements for raising pigs have become higher, the rural scattered farmers are accelerating to reduce, the scale of aquaculture is rising, and the scale and enterprise farming are gradually occupying the leading position. Chongqing animal husbandry construction ideas will be based on the construction of modern animal husbandry industry system as the main line, to promote standardized scale production, improve the service supervision system, improve the market circulation system, the establishment of modern management system mechanism as the focus, to promote the transformation of production mode and economic growth mode, to enhance the market competitiveness of livestock products, to ensure market supply, to enhance the efficiency of animal husbandry, to build a resource-saving and environment-friendly modern animal husbandry demonstration area based on live pigs, to explore the road and accumulate experience for the construction of modern animal husbandry in China.</p>
Project progress and conditions	<p>The project has completed business registration and named Chongqing Kaizhou Wenshi Livestock Comepany Limited. The NDRC is in the process of filing and has completed the preliminary site selection of the pig farm, are located in Min'an village of Nanya town, the Qilin village, Sanyi village, Woyun village and Sihe village of Jiulong Mountain, Xianle village of Sanhuikou township.</p>
Industry profile	<p>The Kaizhou district is located at northeastern of Chongqing, between 107° 55' 48" to 108° 54' east longitude and 30° 49' 30" to 31° 41' 30" north latitude. Kaizhou District is adjacent to Kaijiang County in Sichuan Province in the west, Chengkou County in the north and Xuanhan County in Sichuan Province in the north, Yunyang County in the east, Wuxi County and Wanzhou District in the south, with an</p>

	<p>area of 3595 square kilometers. The terrain gradually decreased from east to southwest, with mountains accounting for 63%, hills for 31% and plains for 6%. Kaizhou District is located in the mid-latitude region, with the general characteristics of subtropical monsoon climate, seasonal changes are obvious. Annual average precipitation is 1250 mm, annual average temperature is 18.5℃, frost-free period is long, reach 306 days above, annual average sunshine time gets 1463 hours.</p> <p>There are 4 national highways in Kaizhou, including G211, G243, G347 and G542. The road is total 272 kilometers, the administrative village smooth rate and administrative village passenger bus access rate reached 100%.</p> <p>Because of the constant fluctuation of pig price and the rising of feed price, the capital, technology and epidemic prevention requirements for raising pigs have become higher, the rural scattered farmers are accelerating to reduce, the scale of aquaculture is rising, and the scale and enterprise farming are gradually occupying the leading position. So we must speed up the development of the company's meat pig breeding in Kaizhou District of Chongqing to seize the market. The development of Southwest Pig Raising Company is becoming more and more mature, and the production cost is decreasing obviously. It can further optimize the operating efficiency of enterprises by expanding the production regulation film and integrating resources.</p>
Upstream and downstream industries	<p>Kaizhou district has a good agricultural foundation, attaches great importance to the development of animal husbandry, identifies with the company plus farmers, leading enterprises with the base of industrial management model to replace the traditional decentralized farming methods, will give strong support for large-scale farming enterprises in projects, funds, taxes and other aspects. At the same time, pig breeding has been the agricultural pillar industry in Kaizhou, with good development conditions and foundation. The local government attaches great importance to animal husbandry, and hopes to introduce large leading enterprises with strong driving force, perfect industrial system, and can bring benefits to the common people, leading the healthy and rapid upgrading of the local pig industry, vigorously supporting the project to settle down, with more preferential policies such as taxation, land use and environmental protection; the local rural surplus labor force is abundant and the farmers are highly motivated to participate in cooperative farming.</p>
1.Industrial policy 2.Preferential policy	First, preferential policies.

1. Party A actively strives for the support policy of the state, province, city and district.

2. In the case of Party B's complete information of epidemic prevention and quarantine declaration, Party A shall immediately issue quarantine certificates and other relevant procedures.

3. Party A shall establish a project leading group and assist Party B in the relevant procedures such as business registration, tax registration, environmental impact assessment, project construction, production license, land transfer, quarantine inspection, fire, etc.

4. According to Party B's family farm development planning area and production progress in accordance with the industrial policy, Party A will incorporate the development objectives into the corresponding town street annual target assessment to ensure the smooth implementation of Party B's project.

5. Party A shall fulfill to Party B the subsidy policy of the state, province, city and district to the pig industry in accordance with the relevant policies of the state, and actively strive for Party B to obtain support policies and subsidy funds for the construction projects of environmental protection projects and the establishment of standardized demonstration farms in relevant farms of the state, province and city.

6. Party A is responsible for assisting the bank (credit department) to carry out financial support for the breeding project of Party B's cooperative family farmers, expanding the channels for Party B's cooperative family farmers to raise funds, and speeding up the pace of promoting the development of cooperative family farms.

Second, land use aspects.

1. Party A is responsible for collecting about 50 mu of net land in Kaizhou Puli New Area which is transferred to Party B as a supporting management facility for the construction of the company's headquarters. Party A shall be responsible for the construction of water, electricity, road, gas, visual and communication facilities of the site before it is delivered to the headquarters land, and shall do a good job in clearing and leveling the ground buildings, structures and attachments.

2. Party A shall assist Party B to obtain 3-4 suitable breeding sites for pig farm construction in the town streets of the district according to the mode of facility agricultural land, and assist Party B in the preparation procedures of facility agricultural

land for pig farm construction.

3. Party A actively guides the development of seed (forest) industry around the farm, and promises to integrate funds through the packaging project to support the laying of the pipe network of the planting base outside the farm of Party B to realize the breeding cycle.

4. If the scope of land transferred by Party B involves the occupation of forest land, Party A is responsible for coordinating the relevant forest land replacement procedures of land and forestry, and assisting Party B to strive for the most favorable compensation fee.

Third, Environmental aspects.

1. Party A is responsible for guiding Party B to carry out environmental impact assessment work and go through environmental impact assessment examination and approval procedures in accordance with relevant laws and regulations of environmental protection.

2. Party A urges Party B and its cooperative family farms to do environmental impact assessment and pollution control facilities according to environmental protection requirements at the same time, to ensure the discharge of standards or zero emissions.

Forth, Project construction

1. The relevant departments of Party A will review the architectural design scheme of the project designed by Party B.

2. The competent department of Party A shall give support to the approval of each unit project (including temporary buildings) of Party B.

3. Party A shall pay the most preferential fee on the basis of the state regulations for the construction of Party B's headquarters office building, shift room feed plant.

4. Party B's farm (house) construction needs to adopt international and domestic advanced technology, the preliminary design plan through Party A organized expert demonstration after the implementation.

Fifth, Collection of Water, Electricity, Gas, Visual and Communications Fees and Other Policies.

1. Without water supply, electricity, road, gas, visual, communication conditions, Party A free to lay the main network to Party B's company headquarters, farms and services of the fence side.

	<p>2. The charging standards for water, electricity, gas, vision and communication shall be implemented according to the most favorable standards of the preferential policies for attracting investment.</p> <p>3. In terms of entry, Party B shall waive all entry fees when its foreign employees settle down.</p> <p>4. Party A does not introduce or support other enterprises or individuals to open new pig farms within 3 kilometers around the pig farms opened by Party B.</p> <p>5. Party A assists Party B to actively strive for policy support and financial support.</p>
--	---

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Qijiang District) 2

Project name	Papaya Deep Processing Project				
Investment attract department	Chongqing Qijiang Food Industrial Park Management Committee				
Category/Industry	Secondary industry	The period of validity		By 2020.	
Total investment	0.3 billion RMB		The amount of investment to be attracted	0.3 billion RMB	
Contact person	Yu Dongmei	Tel	023-48601888	Email	2374800383@qq.com
Location	Chongqing Qijiang Food Industrial Park				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input type="checkbox"/> joint venture <input type="checkbox"/> cooperative development <input checked="" type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else				
Project profile	<p>The project covers an area of about 100 mu, with fresh papaya, dry papaya or papaya residue as the main raw materials, plus natural excipients, uses modern food processing technology to develop and produce papaya products with nutritional and health effects. Main products includes sub-nano papaya powder, protect liver papaya products, papaya wine, concentrated papaya juice, preserved papaya fruit, papaya sod essence, papaya extract and papaya pigment and other series of products. The development of papaya series products' market prospects is huge.</p>				
Project economic benefit analysis	<p>Papaya has rich nutritional elements and health care functions, known as the "hundred beneficial fruit king" said. Because of the many benefits of papaya, the international demand for concentrated juice of papaya is quite different from the current</p>				

	supply, and its export price is as high as 6~100,000 US dollars per ton.
Project progress and conditions	<p>1. For sole proprietorship, the park land reserve is sufficient and the project can carry out the land auction hanging and project design, environmental impact assessment and other work. 2. For acquisition of stock, the park enterprise which named gold cubic wine industry overall transfer, has completed the early adjustment, financial adjustment, can immediately carry out the acquisition related work.</p>
Industry profile	<p>For the raw materials base: Qijiang district has a long history of Chinese medicine papaya planting, has been built 100000 mu of papaya base, the annual production of fresh papaya can be more than 100000 tons.</p> <p>As the only professional food processing park in Chongqing, in order to speed up the agglomeration of deep processing enterprises of agricultural products to the park, Qijiang food park focuses on the industrial matching, factor cost and business environment three aspects, constructs the industrial ecological closed-loop, investment value depression and builds industrial gathering platform. First is to set up a research institute. Around science creation and culture creation, it builds innovation incubator center, industry research center, brand promotion center, intelligent management information think tank, helps enterprises fill the short board in innovation, strategy, capital, brand and marketing, and will potential enterprises to cultivate and incubated into industry unicorn. Second is to establish an industrial alliance. It covers upstream, middle and downstream enterprises in the industrial chain, forms a coordinated development situation, complementary advantages and resource sharing. The inspection, sewage treatment, third party logistics, energy supply, legal consultation and talent introduction of the enterprises will be handed over to the industrial alliance for overall operation, which can improve the production efficiency and save the production cost. Third is to support an industrial base. In accordance with the idea of “integrated planning and overall building”, the park and the new city are equipped with a consumer goods industry base with green food processing as the core, and introduce the professional industrial real estate operators, rely on the industry and real estate as the carrier, in order to realize the overall development and operation of land, and to build an integrated platform of industrial value chain. Forth is to build a demonstration town. Taking health care and industrial tourism as the main line, it integrates the functions of product experience trading, exhibition display, summit forum and industrial tourism,</p>

	<p>and builds a unique demonstration town. Fifth is to create a park business card. Form the point of health and brand, it will promote the image of the park by diversified means, pay attention to brand cultivate, integrate product brand, enterprise brand and industrial brand into the park brand, regional brand and city brand, and create a professional park for high quality development.</p> <p>At present, the park water plant, sewage treatment plant, natural gas and road have been built, is introducing central enterprises to implement the “distributed multi-energy joint supply intelligent energy station” project and to achieve “thermoelectric cooling” triple supply, which can reduce the initial investment, operating and maintenance costs of enterprises, and reduce the cost of steam, electricity, heat and other factors of production costs of about 20% at the same time.</p>
Upstream and downstream industries	<p>The park has planted about 100000 mu of papaya, the annual production of fresh papaya is more than 100000 tons, and has cooperate with Southwest University, the third military Medical University in the research and development of papaya products. At present, three papaya deep processing enterprise have entered, and has formed a certain scale of agglomeration from planting to deep processing which has a certain industrial foundation support.</p>
1.Industrial policy 2.Preferential policy	<p>Land prices can be negotiated according to input, output intensity and tax intensity. Enterprise income tax, value-added tax at the district level can be retained in a certain number of years according to a certain proportion of reward enterprises.</p>

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Qijiang District) 3

Project name	Radish and Pepper Processing Industry Chain				
Investment attract department	The Agricultural and Rural Committee of Qijiang District				
Category/Industry	Tertiary industry	The period of validity	3 years		
Total investment	50 million RMB	The amount of investment to be attracted	50 million RMB		
Contact person	Yang Ying	Tel	13436182712	Email	694941660@qq. com
Location	In the Food Park or Radish Industry Park area.				

Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input checked="" type="checkbox"/> else
Project profile	<p>1. The project scale: the total investment is 50 million RMB.</p> <p>2. The project content: first is to introduce the pepper deep processing leading enterprises, which will have the annual processing capacity of more than 30000 tons, focus on research and production of capsaicin, capsaicin resin, capsaicin seed oil and other deep processing products. Second is to introduce the radish production, deep processing and marketing leading enterprises, support farmers to improve varieties and new varieties for continuous planting, build radish production base and scientific and technological measures to promote the application, adopt the “company+base+farmers” model, research and develop the production of radish silk, strips, radish mustard, pickled vegetables, radish juice and other series of products, use unified packaging sales, and implement one-stop production, supply and marketing pattern.</p>
Project economic benefit analysis	<p>China is a large developing country with a population of 1.3 billion. At present, the proportion of spicy food population is about 40%, the total number of spicy food population is more than 500 million, and the market demand contains great potential for development. China has a long history of spicy food, spicy food crowd is huge. The growth cycle of radish is very short, from sowing to maturity only needs a short period of two months. Also it has a wide range of edible people in our country and radish is the second largest vegetable in China. The radish can not only be as fresh food, but also can be processed into radish shredded, radish slices and so on. In rural areas, people will also use it to pickle or make pickles. The market prospect is broad.</p>
Project progress and conditions	<p>Qijiang pepper has characteristics with individual uniform, bright color and spicy flavor, is rich in protein, fat, sugar, vitamins, amino acids and other nutrients, has developed 70,000 mu high-quality pepper scale planting industry, and the annual production of high-quality pepper is 150000 tons.</p> <p>Qijiang Ganshui Caodou radish has more than 500 years of cultivation history. The radish is named for its shape like grass-roots products. The contents of calcium, phosphorus, iron and riboflavin of the radish were higher than those of citrus and pear, and the total soluble solids, monosaccharide, disaccharide, total acid and ascorbic acid were higher than those of the same radish, and the water content was as high as 94%.</p>
Industry profile	<p>Qijiang has now introduced Chongqing Fanzaoyang Food Co., Ltd. into Qijiang</p>

	<p>Food Industrial Park to process and product the "Fanzaoyang" pepper series products, exported to the United States, Canada and other countries, has been identified as the 2008 Beijing Olympic Games designated recommended products. At present, Qijiang District still has 80,000 tons of pepper per year to provide processing, the supply of raw materials is sufficient. In 1958, the Ganshui Caodou radish was listed as a famous and excellent product by Sichuan Provincial Government. In 2012, it won the Gold Award of the Tenth International Agricultural Trade Fair, Chongqing famous agricultural products, and in 2013, it won the green food certification and the Chinese geographical indication certification trademark. Now, the Ganshui town has developed 20000mu of Caodou radish industry, the annual output is about 80000 tons. Around the town, Guofu town, Yongcheng town and Dongxi town of Qijiang district all have developed Caodou radish planting industry, the annual production of this radish will be 20000 tons, and there are still a large number of arable lands which is suitable for Caodou radish planting.</p>
Upstream and downstream industries	<p>At present, the whole district has reached the scale of 100000 mu of Caodou radish and pepper cultivation, and the supply of raw materials is sufficient. Now it has formed a series of well-known agricultural and sideline products, such as dried radish, Fanzaoyang spicy sauce.</p>
1.Industrial policy 2.Preferential policy	<p>It will support radish and pepper processing enterprises. For the new production lines and equipment purchasing, it will give subsidies according to certain standards.</p>

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Shizhu County) 4

Project name	R & D and Industrialization of Coptis chinensis Health Care Products.				
Investment attract department	Shizhu County Investment Promotion Center				
Category/Industry	Agriculture	The period of validity		By 2021	
Total investment	0.6 billion RMB		The amount of investment to be attracted		0.6 billion RMB
Contact person	Jiang Jun	Tel	023-73398888	Email	55045946@qq.com
Location	In Shizhu County Area				

Cooperation mode	sole proprietorship
Project profile	The project will build a high-level research and development laboratory of Chinese herbal medicine health care products, focus on the development of coptis chinensis as raw and auxiliary materials of traditional Chinese medicine pieces, Chinese patent medicine, coptis chinensis health drinks, coptis chinensis soap (toothpaste) and other new products.
Project economic benefit analysis	In recent years, with the popularization of the concept of healthy health, Chinese medicine has been highly recognized in the domestic and foreign markets, Chinese medicine and Chinese herbal medicine market prospect is very broad.
Project progress and conditions	There are 16 villages and towns, 30000 farmer families and 100000 farmers planting Coptis in the territory, perennial area is more than 50000 mu, the annual new planting and harvest Coptis is 10000 mu, the output value is 3000 tons which ranked first in the country, accounting for 60% of the total country output and more than 40% of the total world output.
Industry profile	Shizhu Coptis is a commonly used precious Chinese medicine, tastes bitter, is the main treatment of reducing fire and detoxifying, clearing heat and dampness, has bacteriostatic, antiviral, antihypertensive, gallbladder, diuretic, sedative, analgesic and enhance white blood cell phagocytosis, also has the function of lowering blood lipids, blood sugar and blood pressure, and has certain curative effect on treating diabetes, cardiovascular and cerebrovascular diseases, skin diseases and some tumors.
Upstream and downstream industries	Coptidis mainly distributed in Chongqing (Shizhu), Hubei (Lichuan), Sichuan, Shaanxi, Yunnan and other places. The output of Shizhu County ranks first in the country, accounting for 60% of the total output of the country, and more than 40% of the total output of the world.
1.Industrial policy 2.Preferential policy	Enterprises can enjoy the western development policy, the three gorges reservoir area industry support policy, minority areas development support policy, Wuling Mountain economic cooperation area poverty alleviation and development policy. "One matter one discussion ", " one enterprise one policy ".

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Shizhu County) 5

Project name	Special crisp red plum deep processing project
--------------	--

Investment attract department	Shizhu County Investment Promotion Center				
Category/Industry	Agriculture		The period of validity	By 2021	
Total investment	0.2 billion RMB		The amount of investment to be attracted	0.2 billion RMB	
Contact person	Jiang Jun	Tel	023-73398888	Email	55045946@qq.com
Location	In Shizhu County Area				
Cooperation mode	sole proprietorship				
Project profile	The project will develop crisp red plum canned, preserved fruit, drinks and other high value-added health products; and develop crisp red plum cold chain logistics, marketing channel construction.				
Project economic benefit analysis	The existing crisp plum base is mainly in the mountainous areas of Sichuan and Chongqing, combined with the actual situation of our county and market capacity, there is a certain space for the development of crisp red plum. In recent years, the price of brittle red plum is high, the base price is 6-7 RMB/kg, the average income is about 10000 RMB/mu, also can reach 20000 RMB in high. At present, crisp red plum fresh fruit and deep processing products consumption market space is large, the western, southern, northern and other urban markets can be expanded, the market prospects are very broad.				
Project progress and conditions	Shizhu County is located at 30 degrees north latitude, belongs to the subtropical humid monsoon climate, with green mountain and water, fertile soil, three-dimensional climate is obvious, elevates in 200-1900 meters, the natural conditions are superior, since ancient times there has been a tradition and habit of planting plums, can produce high crisp red plum.				
Industry profile	At present, the county in land area is 15000 mu, with the county agricultural industrial structure depth adjustment, is vigorously developing crisp red plum planting. After full production, the county will reach more than 70000 tons of fresh fruit.				
Upstream and downstream industries	The existing crisp plum base is mainly in the mountainous areas of Sichuan and Chongqing, combined with the actual situation of our county and market capacity, there is a certain space for the development of crisp red plum. At present, crisp red plum fresh fruit and deep processing products consumption market space is large, the western,				

	southern, northern and other urban markets can be expanded, the market prospects are very broad.
1.Industrial policy 2.Preferential policy	Enterprises can enjoy the western development policy, the three gorges reservoir area industry support policy, minority areas development support policy, Wuling Mountain economic cooperation area poverty alleviation and development policy. "One matter one discussion "," one enterprise one policy ".

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Shizhu County) 6

Project name	Deep Processing of Chinese Medicinal Materials				
Investment attract department	Shizhu County Investment Promotion Center				
Category/Industry	Agriculture	The period of validity		By 2021	
Total investment	0.6 billion RMB	The amount of investment to be attracted		0.6 billion RMB	
Contact person	Jiang Jun	Tel	023-73398888	Email	55045946@qq.com
Location	In Shizhu County Area				
Cooperation mode	sole proprietorship				
Project profile	The project uses abundant resources of Chinese medicinal materials, such as Coptis chinensis, Foshou and Qianhu, to build a production line of traditional Chinese medicine pieces, Chinese veterinary medicine and Chinese patent medicine, which integrates R & D and production, and forms a complete biopharmaceutical industry system.				
Project economic benefit analysis	With the development of social economy, the public has higher and more diversified demand for health care. Traditional Chinese Medicine (TCM) is becoming more and more popular in the whole country and the whole world because of its specialty in treating difficult diseases, geriatric diseases and health care. The market demand is increasing year by year, and the development prospect is very broad.				
Project progress and conditions	Shizhu County is rich in Chinese herbal medicine resources. The county produces more than 1700 kinds of plant Chinese medicinal materials, more than 170 kinds of animal Chinese medicinal materials, more than 20 kinds of mineral medicinal materials, can be developed and utilized of 206 kinds of Chinese medicinal materials, Gastrodia				

	elata, Foshou, Codonopsis, Polygonum multiflorum, Honeysuckle, Eucommia ulmoides, Magnolia officinalis, Phellodendron chinensis and other valuable Chinese medicinal materials of high quality, especially in the name of Coptis chinensis.
Industry profile	The county's existing artificial cultivation of Chinese medicinal materials in the land area is 300000 mu, including 100000 mu of herbal medicine, 200000 mu of woody medicinal materials, and the annual output is more than 15000 tons. With the deepening of the deep adjustment of industrial structure, the scale of Chinese medicinal materials in the whole county will be further increased, which provides a good resource condition for industrialization deep processing.
Upstream and downstream industries	At present, the county has 2 pharmaceutical enterprises which has a certain industrial base. Shizhu County's unique location advantage makes the development of Chinese herbal medicine deep processing market radiation, broad prospects.
1.Industrial policy 2.Preferential policy	Enterprises can enjoy the western development policy, the three gorges reservoir area industry support policy, minority areas development support policy, Wuling Mountain economic cooperation area poverty alleviation and development policy. "One matter one discussion ", " one enterprise one policy ".

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Xiushan County) 7

Project name	The Traditional Chinese medicine slices processing project				
Investment attract department	The investment promotion center of Xiushan County.				
Category/Industry	The Secondary industry	The period of validity		For Long-term.	
Total investment	0.1 billion RMB		The amount of investment to be attracted	By cooperation, joint venture and other ways.	
Contact person	Zhang Yu	Tel	18996921601	Email	124533673@qq.com
Location	In the industry park of Xiushan County.				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else				
Project profile	The construction area is 10000 square meters, and builds 5 traditional Chinese medicine slices processing production line.				

Project economic benefit analysis	After the construction of project, it will achieve 0.2 billion RMB in sales volume, the tax revenue will be 7 million RMB, and will provide 300 persons for employment.
Project progress and conditions	The project is developing the primary preparation work.
Industry profile	Xiushan County is located in the hinterland of Wuling Mountain, and has very rich traditional Chinese medicine materials resources. In recent years, Xiushan County speeds up the development of traditional Chinese materials industry, the Chinese herbal medicine industry has gradually changed from a single honeysuckle in the past to a combination structure supplemented by more than ten species, such as Flos Lonicerae, Atractylodes macrocephala, Huang Jing, Southern Atractylodes, Baiji, Luohanguo, Tiandong and Artemisia annua.
Upstream and downstream industries	As of 2018, the base area of traditional Chinese medicine in Xiushan County has reached 250000 mu, of which honeysuckle has more than 150000 mu and dry flower yield is nearly 5000 tons, which makes Xiushan one of the three largest honeysuckle base counties in the country; the Atractylodes macrocephala has a perennial planting area of about 20,000 mu and an output of more than 2000 tons; the Huangjing has an area of more than 6000 mu, Tiandong has an area of more than 1500 mu and Baihe has a planting area of more than 8000 mu, and the other traditional Chinese medicinal materials has a planting area of more than 10000 mu, other woody medicinal materials are more than 50000 mu. The Chinese herbal medicine industry leading enterprises reached 35 (including 6 city-level leading enterprises), Chinese herbal medicine professional cooperatives is more than 80.
1.Industrial policy 2.Preferential policy	Tax preferences. Rental preferences of plant. For real need for land, the new key support industry projects which invest in 100 million RMB or more than it can use “one enterprise one discussion” for land supply. It can enjoy decoration, relocation and equipment subsidies.

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Xiushan County) 8

Project name	The Chinese patent medicine processing and production project
Investment attract department	The investment promotion center of Xiushan County.

Category/Industry	The Secondary industry		The period of validity	For Long-term.	
Total investment	0.1 billion RMB		The amount of investment to be attracted	By cooperation, joint venture and other ways.	
Contact person	Zhang Yu	Tel	18996921601	Email	124533673@qq.com
Location	In the industry park of Xiushan County.				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else				
Project profile	The land area is 100 mu, and builds a Chinese patent medicine processing production factory.				
Project economic benefit analysis	After the construction of project, it will achieve 0.2 billion RMB in sales volume, the tax revenue will be 8 million RMB, and will provide 100 persons for employment.				
Project progress and conditions	The project is developing the primary preparation work.				
Industry profile	Xiushan County is located in the hinterland of Wuling Mountain, and has very rich traditional Chinese medicine materials resources. In recent years, Xiushan County speeds up the development of traditional Chinese materials industry, the Chinese herbal medicine industry has gradually changed from a single honeysuckle in the past to a combination structure supplemented by more than ten species, such as Flos Lonicerae, Atractylodes macrocephala, Huang Jing, Southern Atractylodes, Baiji, Luohanguo, Tiandong and Artemisia annua.				
Upstream and downstream industries	As of 2018, the base area of traditional Chinese medicine in Xiushan County has reached 250000 mu, of which honeysuckle has more than 150000 mu and dry flower yield is nearly 5000 tons, which makes Xiushan one of the three largest honeysuckle base counties in the country; the Atractylodes macrocephala has a perennial planting area of about 20,000 mu and an output of more than 2000 tons; the Huangjing has an area of more than 6000 mu, Tiandong has an area of more than 1500 mu and Baihe has a planting area of more than 8000 mu, and the other traditional Chinese medicinal materials has a planting area of more than 10000 mu, other woody medicinal materials are more than 50000 mu. The Chinese herbal medicine industry leading enterprises reached 35 (including 6 city-level leading enterprises), Chinese herbal medicine professional cooperatives is more than 80.				

1.Industrial policy 2.Preferential policy	Tax preferences. Rental preferences of plant. For real need for land, the new key support industry projects which invest in 100 million RMB or more than it can use “one enterprise one discussion” for land supply. It can enjoy decoration, relocation and equipment subsidies.

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Xiushan County) 9

Project name	The Tea polyphenols extraction project				
Investment attract department	The investment promotion center of Xiushan County.				
Category/Industry	The Secondary industry	The period of validity		For Long-term.	
Total investment	0.1 billion RMB		The amount of investment to be attracted	By cooperation, joint venture and other ways.	
Contact person	Zhang Yu	Tel	18996921601	Email	124533673@qq.com
Location	In the industry park of Xiushan County.				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else				
Project profile	The project covers an area of 100 mu, is building an annual production of 50 tons of tea polyphenols processing and extraction industry park.				
Project economic benefit analysis	After the construction of project, it will achieve 0.2 billion RMB in sales volume, the tax revenue will be 7 million RMB, and will provide 200 persons for employment.				
Project progress and conditions	The project is developing the primary preparation work.				
Industry profile	Tea polyphenols are stimulant in cerebral cortex, so they are widely used in beverage, food and medicine. At present, the annual demand for tea polyphenols in the international market is about 1500-2000 tons, but now the world's output is only 450-500 tons, which can only meet one quarter of the market needs, and the insufficient part is synthetic substitutes. In recent years, the domestic food market has increased at a rate of 20%, and the demand for tea polyphenols has been stimulated, and the annual demand is predicted to be more than 100 tons.				
Upstream and downstream	Now Xiushan County has 90000 mu of tea base, among them, there are 5000 mu for standardized high-quality tea base, 200 mu for high-standard pollution-free tea park				

industries	demonstration film, 2 high-standard cutting seedling base. The tea industry covers 16 towns and 54 administrative villages, mainly has Fuding Dabai, Chuanxiaoye, An'ji White Tea, Jin Guanyin and other 8 varieties. By 2020, the county tea park area will be 200000 mu to build the city's largest tea base county, the annual production of dry primary tea will be more than 8000 tons.
1.Industrial policy 2.Preferential policy	Tax preferences. Rental preferences of plant. For real need for land, the new key support industry projects which invest in 100 million RMB or more than it can use "one enterprise one discussion" for land supply. It can enjoy decoration, relocation and equipment subsidies.

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Xiushan County) 10

Project name	The Annual production of 10,000 tons of honeysuckle chlorogenic acid extraction project				
Investment attract department	The investment promotion center of Xiushan County.				
Category/Industry	The Secondary industry		The period of validity	For Long-term.	
Total investment	0.1 billion RMB		The amount of investment to be attracted	By cooperation, joint venture and other ways.	
Contact person	Zhang Yu	Tel	18996921601	Email	124533673@qq.com
Location	In the industry park of Xiushan County.				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else				
Project profile	The project covers an area of 50 mu, and builds 5 annual production of 10,000 tons of honeysuckle chlorogenic acid extraction lines.				
Project economic benefit analysis	After the completion of the project, it will realize the scale of production and marketing of 150 million RMB, and 5 million RMB for tax, and solve the employment problem of 100 people.				
Project progress and conditions	The project is developing the primary preparation work.				
Industry profile	The main origin of honeysuckle is Shandong, Henan, Hunan, Guangxi, Chongqing and Guizhou, its original plant is honeysuckle, its chlorogenic acid content is lower. In				

	the medicinal honeysuckle species, the Rendong which produced in Xiushan, Youyang and Qijiang has the highest active chemical components of chlorogenic acid, isochlorogenic acid and volatile oil, and is a potential development of honeysuckle resources varieties, with strong market competitiveness, the export foreign exchange market is very optimistic.
Upstream and downstream industries	By 2018, the planting scale of Xiushan honeysuckle has exceeded 300000 mu, ranking third in the country, with an annual output of more than 30,000 tons. The content of chlorogenic acid in Yulei No .1 variety is as high as 7.1%, and the yield and quality of chlorogenic acid per plant are all called crowns in China. In March 2008, "Yu Lei No .1" became a famous trademark recognized by the State Administration of Industry and Commerce, in 2010, Xiushan County was awarded by the municipal government & quot; Chongqing pollution-free honeysuckle production county & quot; title.
1. Industrial policy 2. Preferential policy	Tax preferences. Rental preferences of plant. For real need for land, the new key support industry projects which invest in 100 million RMB or more than it can use "one enterprise one discussion" for land supply. It can enjoy decoration, relocation and equipment subsidies.

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Xiushan County) 11

Project name	The Annual production of 1000 tons of honeysuckle extractum production line				
Investment attract department	The investment promotion center of Xiushan County.				
Category/Industry	The Secondary industry	The period of validity		For Long-term.	
Total investment	0.1 billion RMB		The amount of investment to be attracted	By cooperation, joint venture and other ways.	
Contact person	Zhang Yu	Tel	18996921601	Email	124533673@qq.com
Location	In the industry park of Xiushan County.				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else				
Project profile	The project covers an area of 50 mu, and builds 5 annual production of 1000 tons of				

	honeysuckle extractum production lines.
Project economic benefit analysis	After the completion of the project, it will realize the scale of production and marketing of 220 million RMB, and 7 million RMB for tax, and solve the employment problem of 200 people.
Project progress and conditions	The project is developing the primary preparation work.
Industry profile	The honeysuckle extractum series products are in short supply in the international market. Vigorously building honeysuckle extractum is helpful to improve the rapid economic development.
Upstream and downstream industries	By 2018, the planting scale of Xiushan honeysuckle has exceeded 300000 mu, ranking third in the country, with an annual output of more than 30,000 tons. The content of chlorogenic acid in Yulei No .1 variety is as high as 7.1%, and the yield and quality of chlorogenic acid per plant are all called crowns in China. In March 2008, "Yu Lei No .1" became a famous trademark recognized by the State Administration of Industry and Commerce, in 2010, Xiushan County was awarded by the municipal government & "Chongqing pollution-free honeysuckle production county & " title.
1. Industrial policy 2. Preferential policy	Tax preferences. Rental preferences of plant. Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input checked="" type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input type="checkbox"/> else
Project profile	The project covers an area of 100 mu, and builds 1 juice beverage production workshop.
Project economic benefit analysis	After the completion of the project, it will realize the scale of production and marketing of 0.1 billion RMB, and 4 million RMB for tax, and solve the employment problem of 100 people.
Project progress and conditions	The project is developing the primary preparation work.
Industry profile	The development prospect of beverage industry in 2019 is still promising, and the development potential of beverage industry in China is great in the future. The development prospect of low calorie beverage, healthy nutrition beverage, refrigerated juice beverage and live bacteria type milk beverage is promising. It is expected that by 2022, beverage manufacturing enterprises above the scale of our country will realize the main operating income of 860 billion RMB, and the profitability of beverage enterprises will gradually increase and maintain a high level in the food industry.
Upstream and downstream industries	The scale of tea, honeysuckle, kiwifruit and navel orange industries in Xiushan County is large. Xiushan is the largest kiwifruit base in Chongqing, the pollution-free honeysuckle producing area county of Chongqing. The honeysuckle planting area leapt to the third in our country, and can produce honeysuckle 30000 tons, tea 600 tons and kiwifruit 5000 tons per year, can provide sufficient raw materials for beverage production and processing.
1.Industrial policy 2.Preferential policy	Tax preferences. Rental preferences of plant. For real need for land, the new key support industry projects which invest in 100 million RMB or more than it can use “one enterprise one discussion” for land supply. It can enjoy decoration, relocation and equipment subsidies.

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Tongnan District) 13

Project name	Tongnan District Food Processing Park Project
Investment attract department	Chongqing Tongnan Agricultural Science and Technology Investment (Group) Co., Ltd.

Category/Industry	The secondary industry .		The period of validity		
Total investment	10 billion RMB		The amount of investment to be attracted		
Contact person	Liu Hao	Tel	19112070503	Email	285706781@qq.com
Location	The South Area of Tongnan Industrial Park				
Cooperation mode	<input checked="" type="checkbox"/> sole proprietorship <input type="checkbox"/> joint venture <input checked="" type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input checked="" type="checkbox"/> else				
Project profile	<p>Tongnan District Food Processing Park is located in the Southern Area of Tongnan High-tech Zone, with a planned area of 1.86 square kilometers, mainly engaged in intensive processing of agricultural and sideline products, focusing on cultivating deep processing enterprises such as vegetables, lemons, grain and oil, condiments and snack foods, with perfect infrastructure. It can invest healthy food, dehydrated freeze-dried vegetables, processed vegetables, drinks, pectin, fruit oil, bitter, juice, lemon tables, fruit oil separation essential oil and spices.</p>				
Project economic benefit analysis					
Project progress and conditions	Tongnan District Food Industrial Park has reached 7 projects.				
Industry profile					
Upstream and downstream industries	<p>Tongnan is China's first modern agricultural demonstration zone, national agricultural science and technology park, national agricultural product quality safety zone, national ecological origin product protection demonstration area, the national vegetables and lemon export quality and safety demonstration area, the national agricultural products producing area, the national grain production regions, national mandarin fish breeding base, the national pollution-free vegetable production demonstration base, national leisure agriculture and rural tourism demonstration area, the national "peace agricultural machinery" demonstration area, "the hometown of Chinese vegetables", "China lemon town" and so on.</p> <p>1. the grain and oil industry. The annual grain and oil planting area of the whole region reaches 1 million mu, which will produce 0.4 million tons of grain and 50000 tons of oil, and has built 7 demonstration areas with high yield of ten thousand mu of rice and 3 demonstration areas with rape yield of ten thousand mu. It has built 30</p>				

thousand mu of rape flower scenic spot, successfully held 11 western vegetable capital cauliflower festival, received 760000 tourists annually, promoted the integration and development of agriculture and tourism, realized agricultural efficiency and increased farmers' income.

2. the vegetable industry. The standardized vegetable base is built up to 400000 mu, the annual vegetable replanting area reaches 1 million mu, the total output reaches 2 million tons, the planting area and output occupy the first place in the whole city, and it is the most important core vegetable supply base in Chongqing main city, accounting for one quarter of Chongqing main city supply.

3. the lemon industry. The lemon detoxification seedling center, standardized production base, processing industry park, lemon trading center are being built. It will build a large-scale and standardized base with an area of 250000 mu, with a output of 0.5 million tons and a total output value of more than 5 billion RMB. The first International Lemon Festival in Tongnan, Chongqing, China was successfully held in 2017.

4. the pig industry. There are more than 1 million live pigs column per year in the whole district, has built 1068 pig farms, 312 of them have more than 1000 live pigs column per year, and the scale rate is 54%. Relying on the model of "company farmers", 267 cooperative farmers are developed to promote the development of traditional scattered and extensive breeding to the direction of standardization, scale and ecology.

5. the fishery industry. The total area of fishery culture in the whole region is 200000 mu, the total annual output of aquatic products is 40000 tons, and the total output value of fishery is 470 million RMB. 7 demonstration sites for healthy aquaculture of the Ministry of Agriculture, 3 pilot enterprises for traceability of aquatic product quality and safety, and 1 national demonstration base for leisure fishery have emerged, and more than 30 leading enterprises for industrialization of fishery at the municipal and district levels have emerged.

6. the characteristic fruit industry. We will make full use of mountain and sloping farmland and vigorously develop characteristic fruit, with a total planting area of 100,000 mu of Chinese medicinal materials, fruits, ginger, rose, oil peony, pepper and so on. By 2020, the total scale of woody oil industry will reach 150,000 mu, including 80,000 mu of woody oil base. At the same time, we vigorously develop the integration

	<p>of agricultural tourism development, one after another held rose culture festival, mulberry picking festival, pear festival, grapefruit festival and other special agriculture as the theme of the event.</p> <p>7. the Chinese medicine industry. We will focus on developing the cultivation of Chinese medicinal materials such as Phellodendron chinensis, Fructus Aurantii, Trichosanthes, Dendrobium and Bletilla striata. By 2020, the planting area of Chinese medicinal materials will reach 60,000 mu. It constructs 10 area of more than 1000 mu planting base and 40 area of more than 500 mu planting base, introduces 1-2 Chinese herbal medicine processing enterprises, completes the Tongnan Fructus Aurantii, Foshou, Huangjing and other authentic medicinal brand construction.</p> <p>8. the processing logistics. The planning area is 1.86 square kilometers, and in currency, it introduces Huida lemon deep processing project, Puzhen vegetable enzyme project, Mengtai lemon deep processing project and Nanwei Rongchuang hot pot base processing project.</p>
1.Industrial policy 2.Preferential policy	

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Tongnan District) 14

Project name	The Recycling Industry Project of Agricultural Production Waste

The Major Investment Projects from Chongqing Districts and Counties in 2020 (Wuxi County) 15

Project name	Weak Alkali Water Development Project				
Investment attract department	The Economic and Information Commission of Wuxi County				
Category/Industry	Energy	The period of validity		30 years	
Total investment	0.1 billion RMB	The amount of investment to be attracted		0.1 billion RMB	
Contact person	Qiu Lin	Tel	15870491058	Email	
Location	Wenfeng Town, Wuxi County, Chongqing.				
Cooperation mode	<input type="checkbox"/> sole proprietorship <input type="checkbox"/> joint venture <input type="checkbox"/> cooperative development <input type="checkbox"/> acquisition of stock <input type="checkbox"/> entrust operation <input checked="" type="checkbox"/> else				
Project profile	The project will construct a production line of weak alkaline water, and construct a natural weak alkaline spring water plant with annual production of more than 1 million tons.				
Project economic benefit analysis	The project settled in Wuxi County is helpful to solve the problem of employment in our county, increase the income of local farmers, increase the source of local tax revenue and promote the rapid development of the local economy.				
Project progress and conditions	Field investigation has been carried out in the early stage, and construction sites have been drawn up.				
Industry profile	Resource advantage: 1.It can be exploited in large quantities and the water quality is stable. 2. It can build a weak alkaline strontium-bearing spring water development project with excellent water quality and annual production of more than 1 million tons. Labour resources advantage: the Wuxi county has a rich labour resource. The county				

	<p>has a labor force of 270000 people, year-round migrant workers 120000 people. In particular, Wenfeng Town, where the water source is located, is the largest town in our county. The town and its surrounding three towns have a population of more than 80,000, and the population of the market town is more than 15000, which can meet the needs of enterprises. At the same time, the labor cost is relatively low, and the labor cost of enterprises in our county is about 2000 RMB per person per month, which is lower than that of the main city and other areas. At present, Wenfeng Town has a Chongqing-level small business start-up base and more than 50 existing industrial enterprises. Water transportation mode: it can pass through Huatai Port to Yichang, Wuhan, Nanjing and Shanghai, the mileage is 300, 800, 1300 and 1800 kilometers, the cargo ship delivery time is 24, 25, 38 and 48 hours, the freight per ton is 12, 25, 38 and 48 RMB respectively. Road transport: Wuxi County to Chongqing main city highway is 420 kilometers, large truck driving time within 7 hours and the freight around 280 RMB per ton. The Wuxi to Yichang Expressway is nearly 300 kilometers and the large truck driving time is in 4 hours.</p>
<p>Upstream and downstream industries</p>	<p>At present, there are only ten water-producing enterprises in Chongqing. Except for Wahaha produced in Fuling District of Chongqing, there are only a small amount of bottled water supply market, some hotels and enterprises, most of them are bottled water supply local households. The water producing of our city's existing high-quality spring water sources generally is low, the largest is only 200 tons per day, the city has not a key aquatic leading enterprises, in the surrounding areas of Chongqing only Sichuan Lanjian Beverage Group is the water-producing enterprise, its mineral water sales account for more than 60% of the drinking water market share in Sichuan.</p>
<p>1.Industrial policy 2.Preferential policy</p>	<p>Land policy: For projects with fixed assets investment of less than 100 million yuan, the construction land shall be deposited at the competitive price (including public construction land) of the comprehensive land price, and the construction land of Phoenix Group in the Industrial Park shall be more than 80,000 yuan per mu, and the construction land of Jianshan Group shall be arranged to support the development of enterprises. Within 40 meters of the horizontal distance along the bank line, the transfer price is 300 thousand yuan per mu. If the horizontal distance along the bank line is 40 meters, the transfer price is 100 thousand yuan per mu.</p> <p>Tax policy: For new enterprises with annual tax payment of 1 million or more, from</p>

the year of production, subsidies shall be given to 100% and 80% of the county-level retained portion of the enterprise income tax in the 1-3 and 4-5 years respectively, and to 80% of the county-level retained portion of the value-added tax in the 1-5 years.

Standard plant leasing policy: Enterprises with fixed assets investment of less than 50 million yuan enter the standard factory building, and the rent standard is 6 yuan per month / m²(Jianshan rent is returned 4 yuan per month). Enterprises with fixed assets investment of more than 50 million yuan enter the standard factory building and charge the rent according to "one matter one discussion ".
